Priority Applications (No Type Date): JP 95139408 A 19950606

Language, Pages: JP 8333211 (4)

Abstract (Basic): JP 8333211 A

The agricultural thermoplastic synthesised resin film having antifungal and antialgal properties, comprises 100 pts. wt. of polyolefin type resin and 0.05-4 pts. wt. of ultrafine Zn particles.

USE - The agricultural thermoplastic synthesised resin film is for coating cultivation facilities, etc.

ADVANTAGE - The agricultural thermoplastic synthesised resin film has high total ray transmittance, good antifungal and antialgal properties, and can be used for a long time (due to the high durability of the polyolefin resins). The film has no chemical odour and can be used for several seasons continuously.
